

Statement of Zoning Consistency from the Planning Board

On February 20, 2019, the Planning Board met, and, as part of their agenda, passed a recommendation to the Town Board concerning the proposed zoning of the property at 604 Shorey Dr..

The Planning Board unanimously recommended that the Town Board zone the property R-3 as requested by the petitioner.

Per § **160A-383**, The Planning Board notes that the annexation of parcels J083-24 and J083-24-6-1, further described in the metes and bounds submitted as part of the petition to annex by Chas 1, LLC, is deemed an amendment to the official Growth Management Ordinance Map (GMO Map) for the Town of Oriental, and will be amended if so accepted by the Town Board, and

The proposed R-3 zone is compatible with the uses permitted on nearby MU, R-3, and R-1 zoned properties, and other properties in the vicinity; and

The site lies off of White Farm Rd near the developed portion of Dolphin Point, and as such is a residentially traveled local thoroughfare that provides access; and

The site is located at an area of mixed residential uses, and as such may potentially serve as alternative housing option zone; and

The requested extension of water service, according to newly revised Chapter K rules will reduce the amount of treated water having to be flushed into Dolphin Point and increase water quality by requiring the lines to be looped back to the main.

Therefore, the Planning Board recommends that the property in question be zoned R-3 as is compatible with properties in the vicinity and the GMO map be amended to reflect the annexation and zoning as proposed.

Statement of Zoning Consistency with Adopted Plans

The Board of Commissioners of the Town of Oriental finds the action to zone 604 Shorey Drive (“site”) to R-3 reasonable and in the public interest, and consistent with the Town’s Comprehensive Land Use Plan, CAMA Land Use Plan, and nearby land uses in that:

- (1) The proposed R-3 zone is compatible with the uses permitted on nearby MU, R-3, and R-1 zoned properties, and other properties in the vicinity; and
- (2) The site lies off of White Farm Rd near the developed portion of Dolphin Point, and as such is a residentially traveled local thoroughfare that provides access; and
- (3) The site is located at an area of mixed residential uses, and as such may potentially serve as alternative housing option zone.
- (4) The extension of water service, according to newly revised Chapter K rules will reduce the amount of treated water having to be flushed into Dolphin Point and increase water quality by requiring the lines to be looped back to the main.
