Conflict of Interest Certification

The Town of Oriental hereby certifies that, to the best of its knowledge and belief, that there are no present or currently planned interests (financial, contractual, organizational or otherwise) relating to the work to be performed as part of the 2017-2018 Pierce Creek Shallow Draft Dredging Project that would create any actual or potential conflicts of interest (or apparent conflicts of interest) for any of its employees, contractors, subcontractors, designees or other entities or individuals involved in the 2017-2018 Pierce Creek Shallow Draft Dredging Project (including conflicts of interest for immediate family members: spouses, parents or children) that would impinge on its ability to render impartial, technically sound and objective assistance or advice or result in it being given an unfair competitive advantage. In this certification, the term “potential conflict” means reasonably foreseeable conflicts of interest.

The Town of Oriental further certifies that it has and will continue to exercise due diligence in identifying and removing or mitigating, to the Department of Environmental Quality’s satisfaction, any such conflict of interest (or apparent conflict of interest).
